

## Press release

### The iconic « Glouglo » pitcher unveils new transparent colors

Charolles, 2024/11/05 - La Manufacture de Charolles is proud to unveil the new colors of its iconic « Glouglo » pitcher. This handcrafted vase, prized for its unique aesthetic and its place in many collections, is reinvented with new, transparent shades inspired by nature and refinement.

Collectors and art lovers will particularly appreciate the « olive » and « ink » colors, delicately translucent shades that allow the Glouglo to reflect light in a unique way. These singular finishes, entirely handcrafted in our workshops, give each piece an aura of exclusivity and timeless elegance.

This emblematic model is distinguished by its elegance and manifests itself by a joyful « glouglo » when its contents are poured into a glass. Made exclusively in France and entirely by hand, our Glouglo The Original model perpetuates a tradition dating back to 1844. This piece stands out for its versatility, whether as a vase, carafe or decorative object.
