

SPRING/SUMMER

2025

THE RIVIERA

The carefree and playful life on the Riviera inspires our creations – we design stripes in joyful colors and play with unexpected color combinations. Flowers and fruits inspire new shades. It is in these unexpected encounters that magic happens.

HIMLA

GREEN HOUSE

We are inspired by everything that grows and flourishes in greenhouses. The greenhouse becomes our sanctuary, and its ambiance spreads throughout the home. The green hues and shades of the crops serve as our inspiration.

HIMLA

SEA SALT

It is the coastal life that inspires both the colours and the way we want to decorate during this time of year. The blue hues combined with gray tones create a look that is both sophisticated and effortlessly relaxed.
