

**We support interior designers in creating unique objects for exclusive interiors.**

**Disain1971 designs and manufactures its products 100% in Italy. All creations are handmade by experienced artisans: each creation requires between 20 and 30 hours of handcrafted work and between 15 and 17 steps.**

**Craftsmanship and special materials allow the creation of exclusive and customized limited edition objects: the uniqueness of each creation is certified with an archive number - mirrors, coffee tables, dining tables, consoles, and lamps.**

**We enable our clients to own unique, personalized accessories, handcrafted in Italy; and if possible, by participating in their creation themselves.**
