MARUMITSU POTERIE designs and produces the original tableware items (pottery, porcelain, cutlery and linen) for creating "delightful meals".

Having a meals is not just about eating. We think of a meal as "each and every step that makes up having meal". From planing menu and choosing the ingredients, to doing dishes after meals. There are countless moments of joy that make up having a meal. We hope and wish to take part in making such delightful moments with our rustic tableware with a hint of nostalgia.
