

**Discover Palma & Alhambra: 2TEC2's new Bio-based flooring collections**

Palma Gunmetal

Alhambra Zinc

**2TEC2 high-tech flooring** launches two brand-new collections [Palma](#) and [Alhambra](#). Infused with dynamic patterns and captivating colours, these lively floor coverings are an ideal match for the hospitality industry. Their Bio-based woven top layer replaces finite fossil-based carbons with renewable plant-based ones.

Palma Carmine

Alhambra Charcoal

## The most unique designs

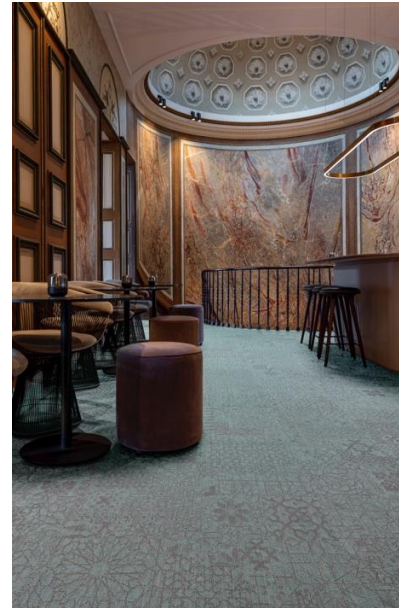

Palma's and Alhambra's designs are truly exceptional. Their ever-unfolding details are carefully woven together, creating flooring patterns like never seen before. With unparalleled flair, these sophisticated designs effortlessly elevate any **hospitality** setting.

Palma Cyan

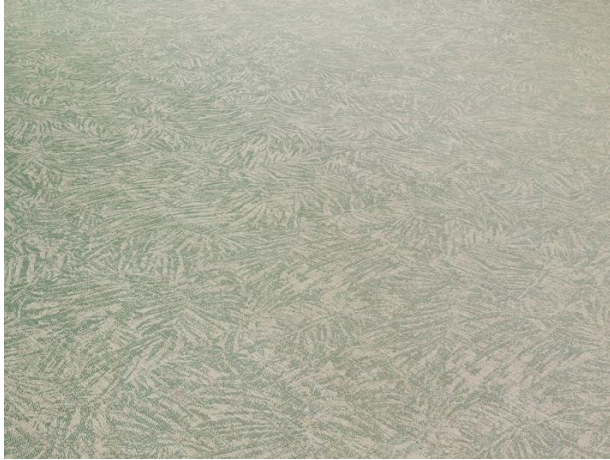

Alhambra Sienna

Alhambra Malachite

**Palma** captures the essence of **tropical elegance**, bringing a sense of natural allure to any space. This collection exudes serenity and tranquillity, yet is at the same time vibrant and visually engaging.

**Alhambra** is inspired by the refined expression of beauty and emotion found within the Moorish sun-soaked Alhambra palace. The pattern plays hide and seek with **intricate mosaics and vegetal motifs**.

Palma Emerald

Alhambra Sand

### 10 new colours, 20 new products

With Palma and Alhambra, 2TEC2 broadens its spectrum of colourful floor coverings. 10 stunning shades were crafted, inspired by fascinating **minerals** and natural dyes discovered across the globe. Both designs feature these same 10 hues, bringing forth 20 new products. This allows you to experiment and combine both designs in the same space, creating a visually stimulating environment.

Palma Gunmetal

Alhambra Umber

### Bio-based

Palma and Alhambra are Bio-based collections. This means that the compound formulation to make the PVC pellets (used in the woven top layer) contains **45% renewable plant-based carbon**, replacing virgin fossil-based carbon.

The use of Bio-based products leads to a **reduction in CO<sub>2</sub> emissions**, toxic waste, and energy and water consumption during production processes.

For this innovation, 2TEC2 obtained the prestigious **TÜV OK Biobased** certificate.

## About 2TEC2

2TEC2 is a 100% Belgian company dedicated to designing and manufacturing recyclable high-tech woven flooring, available in tiles and rolls. Click [here](#) for more information.
