

Discover Brita Sweden Spring Collection at Maison & Objet, January 16–20

We are thrilled to unveil our spring novelties at Maison & Objet in Paris, January 16–20. This season, we introduce an exciting new rug design suitable for both indoor and outdoor use, available in five colorways and a variety of sizes ranging from 70x100 cm to 200x300 cm.

Additionally, we are expanding our popular EVY collection, a delightful linen series perfect for the sofa, bed, or outdoor adventures. The collection now features new color options for cushions, throws, and bedspreads.

Another highlight of our spring offerings is the FIELD cushion, crafted from a luxurious blend of mohair and alpaca, available in bright and beautiful color in a 50x50 cm size.

In honor of a cherished co-owner and family member we lost in 2024, we are proud to present GRASS, a pattern designed by Margaretha Eriksson in the late 1990s. This beautiful design is featured on cushions made from 100% recycled cotton, available in three colorways and measuring 50x50 cm. A portion of proceeds from the GRASS collection will be donated to support heart and lung research.

We look forward to welcoming you to our stand in hall 4, stand E3, and sharing these meaningful and inspiring new designs.
