

MARIONI

PINS

Notorious Collection 2025

Design Piero Angelo Orecchioni

Characterized by unusual shapes emphasized by vibrant colors and impeccable craftsmanship, PINS is the eclectic collection of furnishings.

Presented with four different models of coffee tables, the PINS family has evolved by showing new variants and colors. Therefore, the tables change, grow and become something else... Born as a smart support for a seat or a bed, they become even more functional as precious sculpture lamps and coat hangers in recalling archetypal shapes.

Gifted of a strong personality each object is capable of having its own independent life as well as the harmony created by their combinations.

MARIONI

Marioni

Marioni started with ceramics as a basic material, over the years developing a comprehensive range of furnishing accessories, focusing on color combinations, finishes and decorations. Objects closely linked to the creative aspect of designed details and to the manual skills of our artisans. Today we offer our customers furniture, upholstery, lighting and accessories in three different collections: **NOTORIOUS**, exclusive and sophisticated - **CONCEPT**, in "transitional" style - **CLASSIC**, historically respectful of "Tuscany lifestyle", all strictly 100% made in Italy. In the headquarters in Calenzano, a short distance from Florence is where modelers, decorators and artists work with great skill, combining modernity and tradition to create collections, which continue to maintain their innate and unchanging functional and aesthetic value.

With experience gained in **more than 50 years** and through the acknowledged ability and high professionalism of workers, Marioni is able to accommodate and actively **support the inventiveness and creativity** of architects, designers and artists in every field and at every stage: from the analysis of specific aspects to the optimization of construction details. Ceramics, glass, metal, wood and leather are only some of the materials which can be combined together to accomplish the **most exclusive projects**.

Notorious Collection

Notorious is the collection of design objects inspired to the 40' style. Notorious shows an atmosphere where Hollywood glamour and charme merge with beauty.

A complete line of furniture, upholstery, lighting fixtures and home accessories where the use of refined and sophisticated materials, gives personality to the collection. Exotic veneers such as Ebony and Rosewood, warm materials like parchment and leather, precious marbles such the Calacatta gold and Onyx almond, brushed metals and precious ceramic glazes are expertly combined to reach a true amalgamation of global styles.
