

LOU is the childhood nickname of Luis Isabel Dagnoni, she is the founder and the artistic soul of LOU ArteCeramica.

LOU has long been a designer for jewellery factories in Valenza, Italy. Later she met ceramics and fell in love with it, transferring her passion for precious details in this new material.

LOU's knowledge is rooted in ancient ceramic traditions, which she reinterprets innovatively. Despite many exhibitions in Italy, this marks LOU's second Maison Objet showcase.

In addition to her renowned TEXTURE collection, decorated with a unique technique that implies the engraving of the white glaze surface, Lou will introduce new vibrant bowls painted in shades of blue and green with a matte finish.

There will be also vases and large ornamental bowls created to enhance the pleasure of living space. LOU ArteCeramica Creations are in red or white clay, some are hand moulded on a wheel, others are hand decorated on a bisque. Every creation is a unique piece, rigorously decorated with free hand, without the use of stencil or prints.
