

PRESS RELEASE

Atelier Terra Madre Captivates Attention at Maison & Objet Paris with "Atlas"

Atelier Terra Madre participated in the Maison & Objet fair held in Paris from January 18 to 22, 2025. Known for its craftsmanship and artistic storytelling, the brand garnered significant attention with its new collection showcased at the fair. The star of the collection was the gorilla-inspired table design, "Atlas."

Atlas brings the majesty of nature to dining tables with its powerful and impressive gorilla figure. This handcrafted table design combines aesthetics and functionality. The kinetic mechanism of the gorilla figure, which moves up and down, emphasizes the "kinetic art" concept, adding a dynamic touch to the design. "Atlas" perfectly represents Atelier Terra Madre's artistic vision and technical expertise.

Other noteworthy designs include:

- **ISTANBUL:** A design featuring a seagull with bronze wings flapping and carrying a plate, emphasizing the kinetic art concept,
- **Kea:** A service set with bronze handles and a parrot figure in silver plating,
- **Pegasus:** Cutlery sets with horse head-shaped bronze handles and silver plating,
- **Khepri:** Beetle-themed salt and pepper shakers,
- **Troia:** A stoneware plate with a horse figure and a wooden-accented sauce bowl.

This unique collection, inspired by nature and adorned with elegant details, once again highlights Atelier Terra Madre's dedication to craftsmanship and design excellence. Maison & Objet provided a unique opportunity for the brand to share its creative vision on an international platform.
