

PRESS RELEASE

Launch of the HYPNOTIQUE Collection – Between Movement and Illusion

With Hypnotique, designer **Alexandre Ligios** unveils a bold collection where your vision is taken away to find itself.

Five pieces, five variations around a common language: wrapped in movement, perception, and mastered illusion.

Crafted with the exceptional **fabrics of Maison Casamance**, the collection merges textile expertise with avant-garde design.

Every texture and hue enhances the lines and amplifies the interplay of shapes.

Distributed in **New York at Tuleste Factory**, Hypnotique stands as an immersive experience where design challenges perception.
