ISUWA

#UniqueByDesignPoweredByColor

ISUWA is a design brand founded by Sinem and Didem Yıldırım, who combine their backgrounds in architecture, design and contemporary art to create unique pieces that elevate everyday life.

"We believe that design is a meaningful experience that touches every part of our lives."

Our products—plates, coasters, serving trays, and more—are designed to add color, joy and creativity to daily routines. These pieces are not just functional; they are created to turn everyday moments into inspiring and memorable experiences.

Sinem, an architect and contemporary artist, brings a deep artistic perspective to every design, while Didem, with her background in design, ensures a perfect balance between form and function.

"At ISUWA, we believe that every object should evoke emotion, spark creativity and add value to our everyday lives. With each piece, we strive to make daily life more vibrant, colorful and inspiring. For us, design is not just a decorative choice; it's a way to infuse value and meaning into our daily lives."

#DesignInColors

More than function, designed to inspire.

We believe design belongs in everyday life. With bold colors and striking forms, ISUWA trays and napkin holders turn simple, daily moments into something special.

These designs do more than just hold—they present. They don't just serve; they transform. Perfect for those who see design not just as decoration, but as an everyday experience. Because the objects around us shouldn't just serve a purpose—they should spark emotion.
