

AER INSIDE®

Pure air comes to your home!

# AER INSIDE®

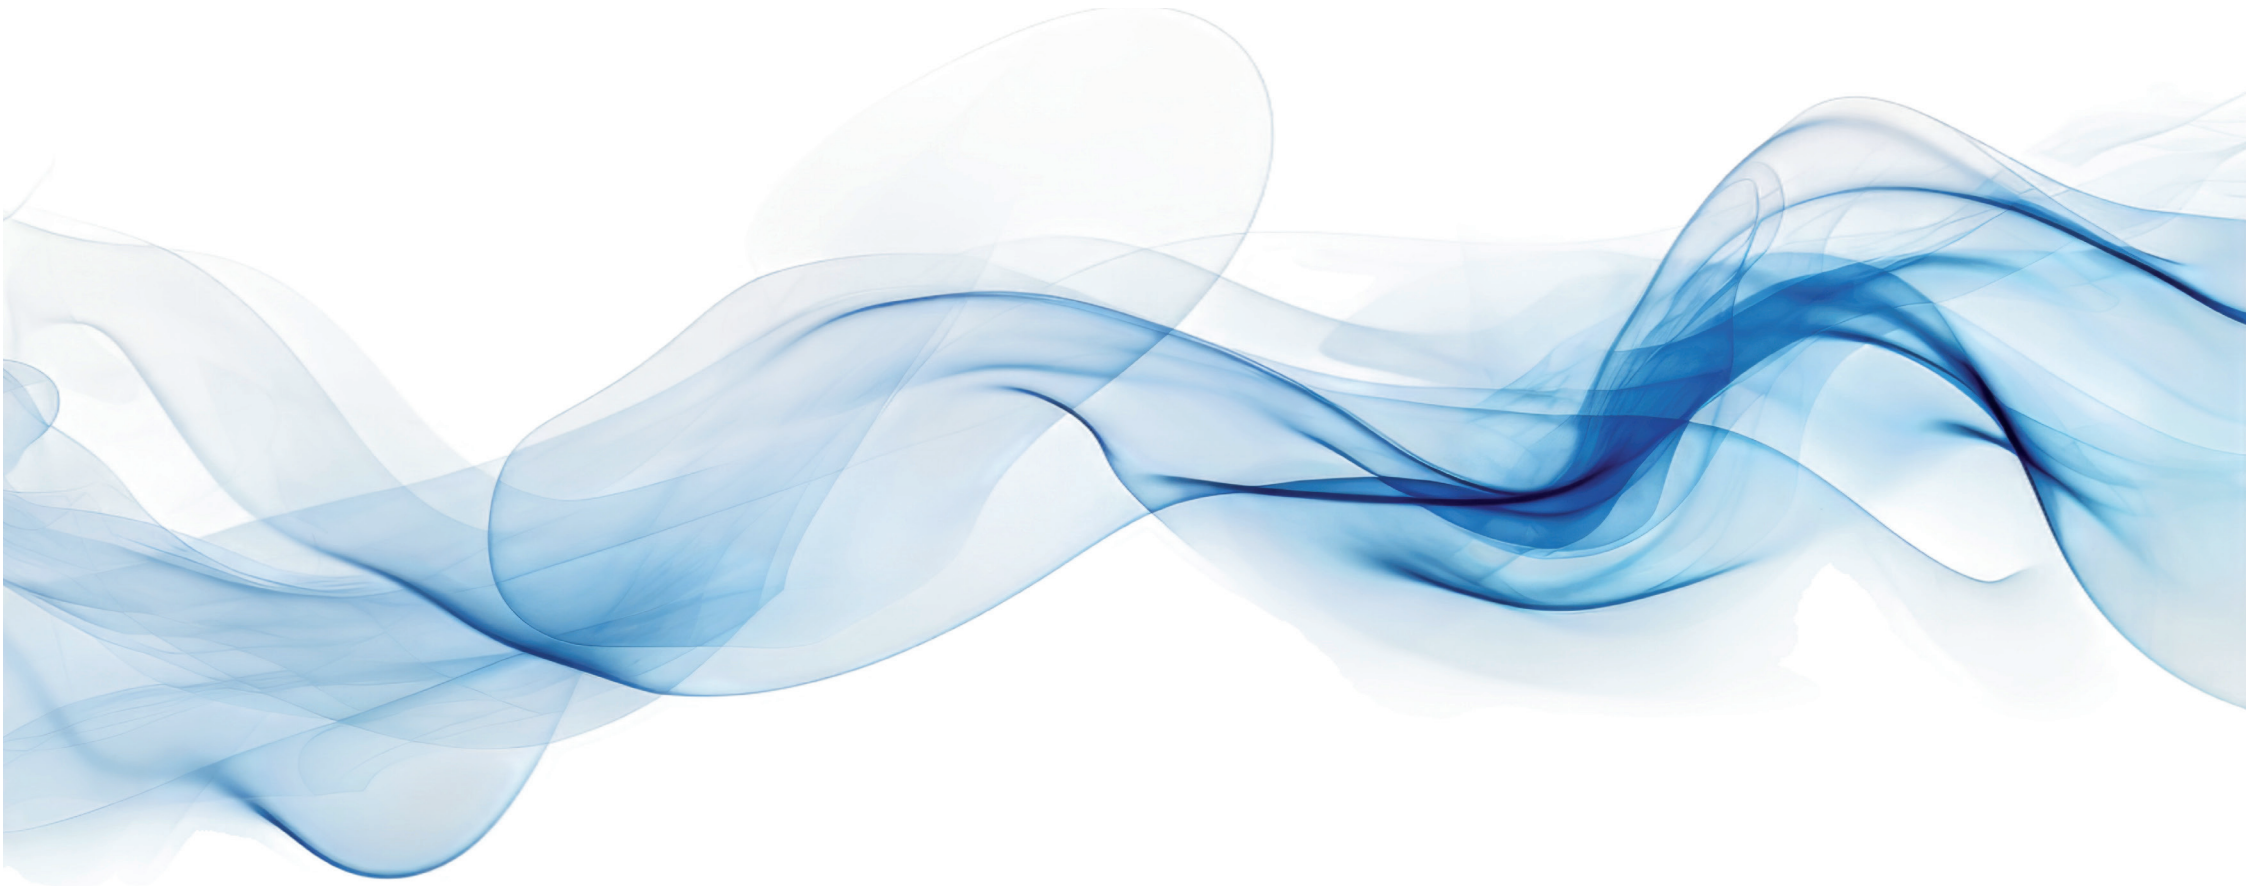

The concept of probiotic diffusion was born during a time when the world slowed down due to the health crisis. A time when most of us were confined indoors. The idea of moving towards more natural products and the desire to reduce indoor pollution led us to develop two products using a new technology for the home: the diffusion of probiotics by ultrasound mode.

In fact, we spend 80% of our time indoors, but the air in our homes, offices, and transport is five times more polluted than the air outside our cities. Indoor air pollution in homes is a real concern. In 2020, air pollution was responsible for approximately 3.2 million deaths per year.

Our probiotic diffusion products are mainly natural and designed to bring you well-being on a daily basis. Our liquid solutions, once diffused, reduce allergens such as birch pollen, dust mites, and pet hair, and improve air quality.

# Breathe...

A new WELL-BEING product for the home

# Our products

## TRAVEL PACKAGE - NEUTRAL

Easy to carry, it fits in a pocket, a bag, or a suitcase. Always ready to go with you, the small travel diffuser gives you a cool mist during all your travels.

## NEUTRAL

## NEUTRAL HOME FORMULA - PERFUME

Elegant and efficient, this ceramic diffuser perfumes your interior by reducing certain allergens present in your home. It brings you well-being and serenity.

## SCENT

# The benefits

## **PERFUME YOUR INTERIOR BY REDUCING ALLERGENS**

The advantages of our products are the light and fragrant diffusion of probiotics, which results in the reduction of allergens linked to birch pollen, dust mites, and pet hair. The diffusion will bring you well-being on a daily basis.

### **Allergens:**

#### **- Dust Mites:**

43% reduction in dust mite allergens. Thanks to its long-lasting effect, the product continues to act and achieves a result of 67% after 7 days.

#### **- Birch pollen:**

20% reduction in pollen allergens.

#### **- Pets:**

50% reduction in dog hair allergens.

58% reduction in cat hair allergens.

## **LONG-LASTING EFFECT**

Over the long term, with regular use, the product considerably multiplies the effects of purifying your indoor air.

## **REDUCE UNPLEASANT ODOURS**

Passively, probiotics will also reduce bad odours.

# Our commitments

## DAILY WELL-BEING

Preserving the ecosystem and global health requires deep reflection in which businesses have to play a key role.

This is why ÆR INSIDE® is constantly looking for new commercial partners who are keen to defend the principles and values we carry: respect for the environment and living spaces. We are 100% committed to our partners, guaranteeing constructive and productive collaboration.

## CONTACT US

We are here to answer all your questions and provide you with the necessary information: **[contact@aerinside.com](mailto:contact@aerinside.com)**.

# Let's become partners!

## **ARE YOU INTERESTED IN A WHITE LABEL**

If you are a home fragrance diffusion brand, we are here to help you develop a new product. If you wish to establish a collaboration, ÆR INSIDE® puts its expertise at the service of companies wishing to launch their own eco-responsible brand. Thanks to our raw materials, knowledge, and personalisation service (olfactory signature, tailor-made packaging), you can develop a sustainable brand that suits you! Our products are innovative and can support projects in the field of laboratories oriented towards well-being.

## **WE WILL SUPPORT YOU**

ÆR INSIDE® studies your needs. We can provide you with tailor-made solutions with personalised containers and packaging. We respect your visual identity and olfactory imprint. Our laboratory ensures that your charter is respected and remains in accordance with the effectiveness of probiotics.

## **RELIABILITY TESTS**

ÆR INSIDE® provides you with quality tests at a lower cost to shape your project. We check that your containers and flavours are stabilised with probiotics before marketing. We will support you throughout the process. It's a simple and tailor-made approach. You will then be able to market an original product with beneficial effects for your customers.

## **YOU WANT TO BE A DISTRIBUTOR**

If you are curious and interested in natural raw materials, and if you are a reseller of well-being products (spa, yoga room, organic store, hotel boutique, point of sale in train stations and airports, etc.), ÆR INSIDE® offers you two ranges of probiotic diffusion products: for home and for travel. Like in the middle of nature... Breathe at home with more natural air. Reduce allergens and perfume your interior. Breathe with ÆR INSIDE®.

AER INSIDE®

Like in the middle of nature...
