

The silicone mealtime set, designed to support babies' independence

TROIS KILOS SEPT INTRODUCES ITS BRAND-NEW ANTI-DISASTER SILICONE MEAL SET!

When baby starts eating on their own, the right gear makes all the difference.

That's why the brand has created this clever, complete, and absolutely adorable 4-piece silicone mealtime set – perfect for encouraging autonomy (and reducing cleanup time 😊).

What's inside the set:

- A bowl with suction base to keep purees off the floor (and the walls)
- A divided plate to organize meals and awaken little taste buds
- An ergonomic spoon, gentle on gums
- A cup sized for tiny hands

Also available as a 2-piece kit (bowl + spoon)

“

Learning independence starts at the table, too! With this set, we wanted to combine practicality, aesthetics, and safety.

Patrice, President of Trois Kilos Sept

WHAT WE LOVE:

- ✨ Non-slip – the bowl stays firmly on the table
- ✨ Unbreakable – no worries if it goes flying
- ✨ Easy to clean – straight into the dishwasher, done!
- ✨ So cute – we eat with our eyes first, even at 9 months old
