

HONEY & HOP

The new collections by Trois Kilos Sept

TRENDY JACQUARD MEETS THE SOFTNESS AND COMFORT OF COTTON.

Trois Kilos Sept unveils a double dose of gentleness with the launch of two new textile and sensory collections, coming in September 2025. Meet “Honey”, the little bear in a warm clay tone, and “Hop”, the tender bunny dressed in elegant sienna.

These two collections combine premium materials, minimalist design, and natural inspiration to accompany baby's very first months.

“

By playing with tonal jacquard, one of today's biggest trends, we aimed to create a chic and cozy cocoon. Carefully stitched details and two irresistibly cute characters... this is our take on everyday elegance.
