“ Here Is A Brand New
Inspired By French Vegetable Gardens”

A French brand launched in February 2025,
available at Le Bon Marché in Paris
and on the website [maisonchandelier.com](https://www.maisonchandelier.com)

MAISON CHANDELIER was founded by Natalie BADER. With extensive experience in the luxury world, Natalie has nurtured her career at iconic brands such as Chanel, LVMH, Prada, Clarins, and the Ritz....

Today, she launches Maison Chandelier, a project that reconnects with the emotional and olfactory sensations she experienced in her childhood vegetable garden, that haven of peace, cultivated and planted by Monsieur... Chandelier, the gardener at the time!

Driven by these memories of authenticity and sharing, Natalie has created a brand imbued with poetry and sincerity, celebrating the richness of roots and the beauty of simple things.

Maison Chandelier is the combination of exceptional expertise and a vision fueled by the essential.

MAISON CHANDELIER offers

a collection of six scented vegetable candles that immerse us in the authentic, joyful, and revitalizing world of French vegetable gardens.

This collection will be enriched with new scents and products for the garden and home throughout the seasons.

Scented candles from the vegetable garden

with unique scents created by renowned perfumers using essential oils and flower and plant extracts, inspired by the vegetables and fruits of French vegetable gardens.

Figue Jaune
Yellow Fig

Feuilles de Cassis
Blackcurrant leaves

Rhubarbe
Rhubarb

Carotte
Carrot

Petit Pois
Green Peas

Tomate
Tomato

Maison Chandelier

6 eco-designed luxury scented candles:

FRENCH MADE

This candle collection features:

- High-quality raw materials.
- Exclusive fragrances inspired by the vegetable garden, created by renowned perfumer Domitille Michalon, who works for major luxury brands. Used in high concentrations.
- Handcrafted in France by a candlemaker (since 1988) near Toulouse.
- And hand-blown colored bubbled glasses, topped with a signature glass lid, to keep, to use... Each piece is unique and can be collected as desired.

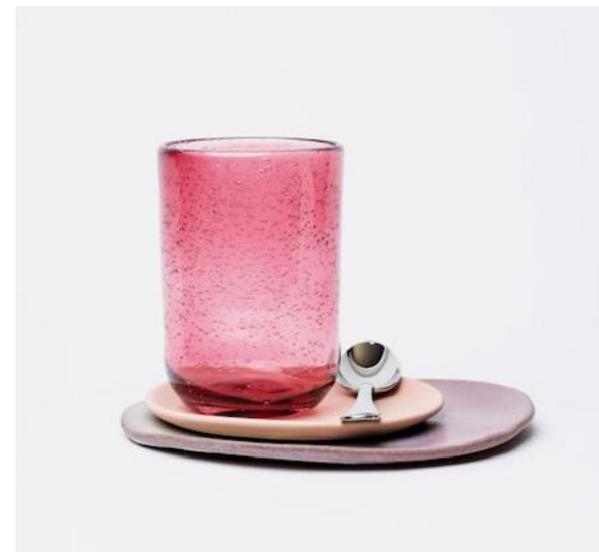

These beautiful planter candles are obviously eco-designed: fine handcrafted French wax, high-quality cotton wick, mouth-blown bubble glass with a glass lid, reusable in a pretty jar or pot...

All in a cardboard box that revisits—in a more pop way—the codes of the traditional herbarium!

And Natalie knows how to offer us a multitude of uses for these dapper little pots!

In short, a Maison Chandelier candle weighs 320 grams and lasts 65 hours of pure joy, a generous weight and burn time chosen by a brand that strives to make the pleasure last...

€79 per candle

Each piece is unique and can be collected as desired.
