

## Autumn Softness and Winter Magic: Mix & Match Takes Center Stage in the Fall-Winter 2025 Collection

The new Fall-Winter collection by Franoise PAVIOT is an invitation to create, combine, and mix according to your own inspirations. It explores the French art of living through a mix & match of patterns and tones inspired by nature, reimagined winter traditions, and the world of ballet.

For over 30 years, this family-owned company has been designing and producing collections of non-woven napkins and tablecloths near Lyon, combining exclusive designs with French craftsmanship. Now available in over 500 retail locations in Paris and across the country, its creations bring an elegant touch to every table, for any occasion.

### Chic Countryside Atmosphere

Soft tones and playful prints make their way onto the first autumn tables. Inspired by the charm of a country home, Franoise Paviot's autumn collections blend graphic stripes with seasonal botanical patterns, striking the perfect balance between natural elegance, refinement, and simplicity.
