OUR STORY

COMO Shambhala is a global luxury wellness company founded by Christina Ong in Singapore in 1997. We have destinations all over the world, from London to Australia – with a new wellness flagship at COMO Orchard in Singapore.

We believe wellness begins within. Through an integrated approach that includes nutrition, movement, and treatments, we are able to meet clients wherever they are on their wellness journey.

Our range of COMO Shambhala products complement this intention.

Kindly note that prices in this catalogue are recommended retail prices in Singapore Dollars, and are not inclusive of prevailing government and service tax.

OUR BLENDS

OUR BLENDS

Our nine scented blends, developed over 30 years with a leading London aromatherapist, are a treat for the senses. They are made from pure essential oils and are free from parabens, petrochemicals, synthetic substances, and artificial colour or fragrance. Our signature blend is called Invigorate. The blends are also used in our range of lifestyle scents, including diffusers and candles.

These blends form the foundation of COMO Shambhala's hair and body care range. They turn daily routines into uplifting rituals with our assortment of hair and body cleansers, lotions, and oils that leave the skin feeling soft and supple to the touch.

Jojoba oil, extracted from the jojoba plant seed, is used in our body and hand wash. The oil, which is similar to our skin's natural sebum, is easily absorbed. The oil's high content of vitamin E is good for sensitive skin, while jojoba's antibacterial qualities help create barriers against pollution and breakouts. Our body and hand wash also use Japanese camellia, which contains a moisturising Omega3 fatty acid, and vitamin E. Our body lotion is enriched with South African shea butter – a vegetable fat extracted from the Shea tree – to protect skin from heat and UV damage.
