

Timeless and understated design – Tapti Rug

Tapti is a handwoven wool rug featuring a subtle yet dynamic pattern created by two colour shades. Tapti Green has a deep forest hue and a softer, lighter tone while Tapti Rust has a warm rust and softer orange tone. These colours blend harmoniously to give the rug a beautiful depth and a natural, organic feel.

With its understated design, Tapti elevates an entire room, creating a warm foundation that frames the furniture and enhances the space. A durable and timeless choice, it suits both modern and classic interiors perfectly.

In our universe, handmade products are the most beautiful things we can have at home. Nature is a source of inspiration for us, everything we do, and produce breathes respect for it. We like to mix materials and patterns to create excitement in the interiors. Soft shapes and textures continue to be an important feature, along with our signature geometric and ethnic patterns, says Stig Jonsson Creative Director, Chhatwal & Jonsson.

With sustainability in focus all our products in the collection are made from 100% natural materials like linen, wool and cotton. Nature's Material.
