TABLEAU

The essence of quiet elegance

With the Tableau Collection, Reflections Copenhagen invites you into a world of timeless elegance – where the table becomes a tableau vivant: a living composition of serenity, beauty, and heritage.

Inspired by French country homes and maisons de famille, the collection evokes the atmosphere of extended, leisurely gatherings.

The collection includes sculptural crystal vases, candleholders, table card holders, a cutlery holder, and a grand centerpiece bowl – all designed to elevate the modern tablescape. Rendered in sophisticated hues of blue, rose, smoky grey, and green, each object acts as a quiet focal point: functional, artistic, and enduring.

At the heart of the collection stands the Butterfly vase – a signature piece that showcases the remarkable skill of Reflections Copenhagen's artisans. Though visually bold and substantial, it is astonishingly light to the touch, revealing advanced techniques in crystal carving and balance.

Tableau is a tribute to l'art de vivre – the art of living well, with grace and intention. Every piece is conceived as a modern heirloom, made to be part of life's most cherished rituals.

A quiet presence. A still beauty.

A statement vase designed to anchor the modern table with artistic depth and refined craftsmanship.
