

Outdoor furniture blends with the pleasure of living Style and harmony come together in the garden with the new Piave and Cassia garden furniture set by Nardi

A garden set for every moment of the day: from your first coffee in the sun to dinner beneath the stars. The new Piave table matched with the Cassia chair collection, gives a new twist to convivial gatherings outdoors with balance, elegance and functionality.

The Piave table system stands out with its visual lightness and harmonious proportions. Its coated aluminium frame merges with the 6 mm thick HPL Materia laminate top, featuring rounded corners and an embossed finish that enhances its tactile and material qualities. The top is fixed with a concealed press-fit system, highlighting the clean lines of the design and its minimalist aesthetic.

Next to the table, the new Cassia chairs complete the set with their consistent, contemporary appeal. Made of fiberglass resin and available in a regenerated version, they stand out with their stylised horizontal slats and a design that combines ergonomics with character.

Piave, available in a fine selection of laminate finishes matching the base, exclusively developed for Nardi, adapts to a variety of spaces as it comes in seven sizes. Seating is available in a wide range of colours in the Bistrot, Armchair and Stool versions to offer the utmost comfort in any setting.

Nardi

An integral aspect of Nardi's strategy, under the banner of the extensive 'Regeneration' industrial programme for the production of outdoor furniture in used plastic, involves working towards making production processes increasingly sustainable. As of January 2023, all factories use electricity exclusively from certified renewable sources, thanks to a contract that ensures a 100% green supply of energy produced by the Marlengo hydroelectric power plant (Merano, South Tyrol).

Nardi makes long-lasting products, uses entirely recyclable polypropylene and aluminium, and enhances all its products with a recognisable design and an entirely 'Made in Italy' supply chain.
