

SPRING SUMMER 2026

Moments of Summer

The SS26 collection from Ib Laursen is inspired by the summer moments that turn into memories. The decorated summer table brings us together for the season's celebrations, while the garden hums with life and green glimpses.

Here you will find timeless classics that customers return to year after year. Colourful designs and fresh touches ensure the collection speaks to many different tastes. Explore our Ocean ceramics, aesthetic yet functional watering cans for the garden, and meet the new garden friends, joining our popular beach friends and yoga ladies.

With SS26, summer shines through in every detail. Golden bamboo furniture with soft throws evokes a staycation feeling in the garden, while the table is set with embroidered textiles and vases adorned with the season's flowers.

At Ib Laursen, you will find a wide variety of items rooted in the Nordic design tradition. This invites your customers to create a personal and seasonally relevant expression – both indoors and out. We look forward to meeting you at the fairs, where you can experience the SS26 collection up close. Together, let's look ahead to a new season filled with atmosphere, inspiration, and room for renewal.
