

Subj.: premiere participation at Maison&Objet - January 2026 in Paris

First and brief company presentation

Lineamare Design Collection

Exceptional lightobjects for exceptional interiors - unique artisan masterpieces - timeless elegance - made from finest materials, sustainably and passionately handcrafted in Germany.

Traditional craftsmanship meets art & sustainability

Progress also means responsibility and mindfulness with our world and us humans. In an age of increasing digital and anonymous production, automated processes and environmentally harmful transport routes around our world - it is time to reflect on and return to local and traditional handcrafting. Therefore, we stay committed to creating local hand-built and hand-finished products.

Lineamare - exclusive interior & exterior design products

We are passionate about enhancing the ambiance of indoor or outdoor spaces - whether for villas, apartments, hotels, gardens, or yachts - with our exceptional and unique lanterns.

These oases are our personal sanctuary that promotes a sense of well-being and renewal. There we spend valuable time with ourselves, as well as our family, friends and guests.

At Lineamare, we do not produce in mass — each lantern is handcrafted from finest and selected genuine materials in small local manufactories in Germany - optionally customized for materials, surfaces, and colours, according to your wishes. Enjoy our timeless masterpieces - unmatched luxury and individuality.
