Joined “1% for the Planet” and started donating a part of sales.

Since its launch in 2015, Clip Family has been sold at museum shops, stationery stores or book-stores in more than 20 countries around the world. It can be used as a paper clip or a bookmark, and can also be bent into any shape after being soaked in water for five minutes. The body is made of FSC-certified special paper, which is as hard and strong as plastic, yet biodegradable. The newly released Sea Animals Series includes Sea Otter, Seal, and Dolphin. Together with the Penguin and Otter which are currently on sale, they will allow you to enjoy adorable animals swimming vividly in the sea.
