### ***Réminiscence par Bruno Moinard et Claire Bétaille***

**The creativity of the two French architects meets Bisazza's savoir-faire**

**Bisazza** is pleased to unveil the ***Réminiscence*** collection, a series of new marble décors designed by **Bruno Moinard** and **Claire Bétaille** for the **Marmo** and **Marmosaico** lines.

Born from a refined, contemporary interpretation of a classic aesthetic, the collection combines the creative flair of the two French architects with Bisazza's distinctive savoir-faire.

A hallmark of the new patterns — *Cadence*, *Cosmos*, *Écho*, and *Accord* — is the focus on detail. The choice of precious marbles, the elegant color combinations and the meticulous hand-cut of the tesserae are all conceived to create depth and unexpected light effects.
