PRESS KIT SPRING SUMMER

PE ————— 2026

EDITO

This new collection invites us to reconnect with the softness and joy of springtime. It celebrates texture and colour through bright, vibrant designs, created to infuse our spaces with energy and poetry. With shades that are both soft and deep, graphic and floral patterns, there is no doubt that spring has arrived in the world of Haomy. Sky blue, blush pink, ochre yellow, vermillion red... a veritable symphony of colours unfolds and awakens our homes. A collection that enhances both interiors and exteriors with equal elegance, offering a moment of softness and inspiration. An ode to the lightness and joy of the new season ahead, this collection paves the way for a bright, sensitive and resolutely optimistic art of living.

Haomy IS COMMITTED

The labelling of our products is the primary focus of our CSR approach, and it is essential. It is thanks to these labels that we are able to improve our processes and guarantee transparency to our customers. This allows us to reduce social and environmental risks, but also to continuously improve the quality and sustainability of our products. We are also working to reduce our footprint through our packaging, in particular by reducing the use of single-use plastic.

Today, 100% of our products are labelled. We take care to prioritise the use of more sustainable raw materials in the development of our collections and to promote craftsmanship.
