Masamé unveils its new 'Gigaro' Collection

Masamé unveils its new 'Gigaro' collection: a range of raw and glazed terracotta lighting fixtures that showcase the beauty of Mediterranean light and craftsmanship.

Masamé, the French slow-decoration brand, is proud to present Gigaro, its signature lighting collection, at the Maison&Objet trade fair from 15 to 19 January 2026.

Gigaro is an invitation to create a unique Mediterranean atmosphere. The collection pays tribute to the craftsmanship of Mediterranean potters and is inspired by the lightness of Provençal capelines and the play of light in the South.

Hand-turned and glazed, the raw and glazed terracotta pendant lights and wall lights revisit ancestral craftsmanship through their slanted, refined lines. Each piece marks the fusion of traditional craftsmanship and contemporary design.

Discover the Gigaro collection at our stand: Hall 5A, Stand M60.

'Gigaro is the light of the Mediterranean: a light shaped by hand, both poetic and timeless.'

Caroline Marin, Co-fondatrice de Masamé.
