Lucida Luce

*- an ode to light
and brilliance*

Lucida Luce

Lucida Luce is my ode to light, to brilliance, and to the artistry that transforms everyday spaces into something luminous. This collection is a celebration of expression – of shape, colour, and emotion – inspired by the spirit of Italy, its rich design heritage, and above all, the energy of Milano.

As a designer, I am captivated by the boldness and inventiveness of Italian design – from the daring creativity of the Memphis movement to the refined elegance of mid-century masters. The fearless use of colour, the sculptural forms, the playful yet thoughtful compositions – all of it pulses through Lucida Luce, guiding each creation.

Lucida Luce is about light as a statement, which is the essence of my designs. It is about the joy of seeing ordinary interiors transformed into extraordinary experiences. It draws from the radical visions of Ettore Sottsass, Gio Ponti, and others who dared to design with humour, edge, and emotion. And it captures the modern essence of Milan today – the dialogue between classic and contemporary, the unexpected glamour in everyday life.

THE COLLECTION FEATURES

A striking crystal console table, architectural and sculptural, commanding presence. Monumental crystal tea light holders, modern totems of light and colour

Two statement centerpiece bowls, graphic, colour-blocked, and bold.

Each piece is meticulously handcrafted in crystal, where form meets colour to create objects that are timeless yet forward-looking. Lucida Luce is not just about objects – it is about feeling, presence, and the poetry of light in space.

With love and luminous energy from Milan,
