

NEW SHADES OF ASTERIA | PRESS RELEASE

## NEW SHADES OF ASTERIA

This season, UIMAGE welcomes a new wave of colour additions across several of the Asteria designs. From delicate marble details to bold metallic finishes, the expanded palette offers new possibilities for styling interiors with light.

### **Asteria Move Mini**

Designed to set the tone for quiet moments and intimate gatherings, Asteria Move Mini is now available in three new expressions: Clay with a travertine base, grey with a grey marble base in brass, and grey with a grey marble base in steel. The sculptural elegance of the solid marble base complements the soft glow of the portable lamp, making it an ambient centrepiece both on the table and around the home.

### **Asteria Wall**

Further refining its expression, Asteria Wall is now introduced in full polished brass and full polished steel versions, enhancing its architectural silhouette with a high-shine finish. Whether mounted in the short or long version, the new additions elevate both functionality and visual presence.

### **Asteria Micro**

Completing the update is Asteria Micro, now available in full polished brass and full polished steel. With its minimal form and sleek finish, the pendant lamp gains a new identity. Versatile enough to stand alone, yet striking in a linear or clustered arrangement. These new finishes underscore the timeless nature of the design while adding a contemporary edge.

With these colour additions, the Asteria family continues to grow and evolve, embracing bold materials and a versatile palette that adapts to every space.
