

OMNI COLLECTION | PRESS RELEASE

## OMNI COLLECTION

Where form and function unite, UIMAGE is expanding the Omni collection with new additions that highlight clean lines, considered details and atmospheric lighting. Leading the launch is the Omni floor, a sleek new design that extends the flexibility and aesthetic clarity of the Omni collection into a larger silhouette.

Crafted from aluminium with a brass finish, the Omni floor lamp brings a warm and understated presence to the room, elegantly balancing vertical and horizontal light tubes in a timeless, minimalistic structure. Emitting light from both the top and the side, the lamp creates a layered ambience that is ideal for reading, relaxing or setting the tone in the evening. Discreet perforated light panels and fine detailing give the design its signature character; a seamless continuation of the qualities that define the Omni collection.

With light that rotates 360 degrees and soft illumination diffused through a clean, architectural form, the Omni floor is a versatile lighting solution that grounds the interior and adds a tactile, contemporary touch to the space.

Alongside the new floor lamp, Omni ceiling is introduced in a longer version, making it ideal for placement above long dining tables or workspaces, while Omni wall is now available in a mini version, perfect for smaller areas or more discreet installations. These new variations expand the versatility of the collection, offering fresh ways to incorporate soft, functional lighting throughout the home.

UIMAGE is a Danish word meaning 'making an effort', and that's what we want to do every day. UIMAGE is where beautiful Danish design meets affordability, high-quality material, and a genuine care for the environment.

## PRODUCT SPECIFICATIONS

**Name**

Omni floor lamp

**Designer**

Søren Ravn Christensen
