

Les Ritournailles

GIROUETTES ET OBJETS DÉCORATIFS

Elles tournent...

Elles rient,

Et elles ont des ailes...

Weather vanes &
decorative objects

Who are we ?

A mother and daughter, both skilled in product design and the creation of decorative objects. Together, they founded Les Ritournelles, a French artisanal home décor brand known for its vibrant colors, blending poetry, sustainability, and a distinctive soul inspired by their native Brittany.

They design joyful, meaningful objects created to bring beauty and emotion into everyday life.

They are designed and assembled
in Saint-Malo, France

A large and joyful family

Each creation is designed as a small breath of fresh air. The weather vanes joyfully reveal the direction and strength of the wind; the clocks follow the rhythm of tides and time; the glitter globes capture the magic of sparkling moments. At the crossroads of art and craftsmanship, their distinctive and joyful design invites surprise, contemplation, and playfulness.

We collaborate with local illustrators and graphic designers to create limited-edition capsule collections. Durable materials are carefully selected for their longevity, and our objects are designed to last: spare parts are available, allowing each piece to be replaced and the life of the object to be extended. Because a weather vane is meant to be admired from every angle, each model features a different design on the front and back, adding an extra touch of poetry to our gardens.

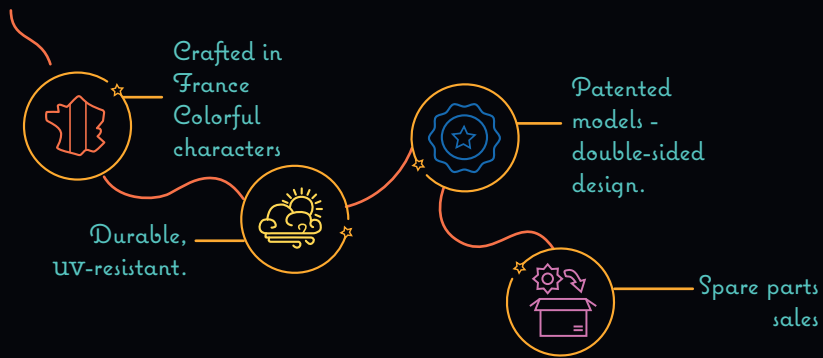

« Each weather vane has a unique design on both sides. »

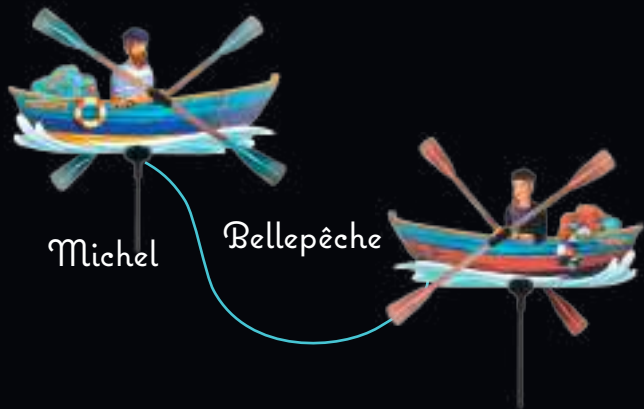

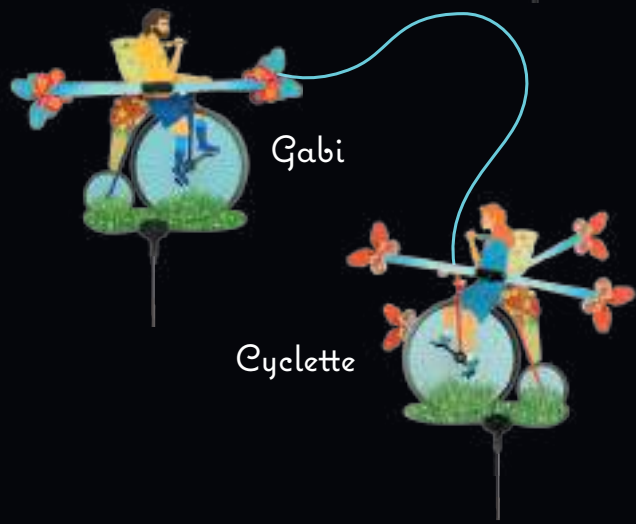

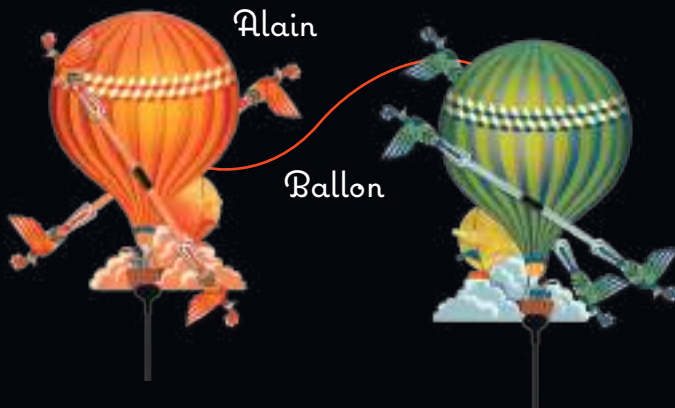

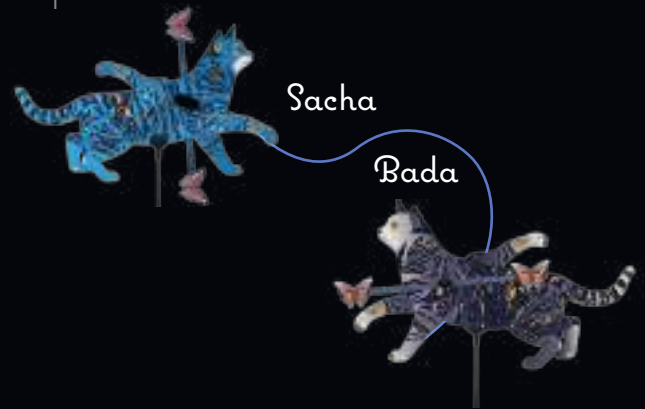

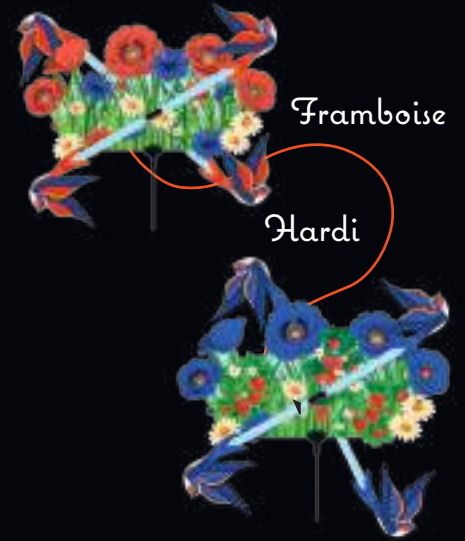

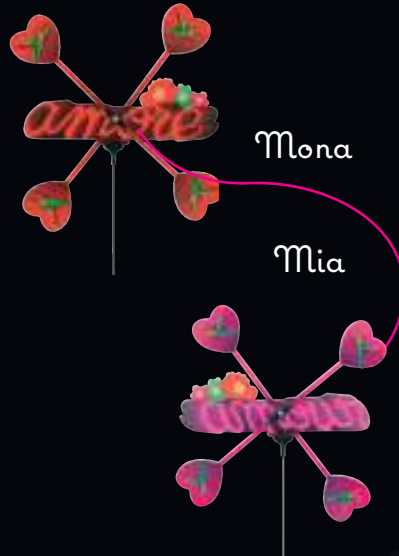

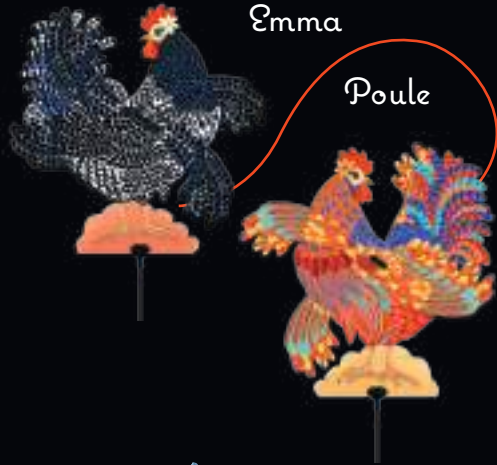

They bring life to :

Gardens,
Balconies,
Terraces,
Rooftops,
Buildings,
Houses and
Vegetable gardens
