

## Where contrasts create harmony

Chhatwal & Jonsson unveils its new collection for Spring/Summer 2026 - a world where the old blends in with new, Scandinavian sensibilities meet international influences, and soft organic shapes coexist with clean, geometric expressions. The result is a rich interplay of contrasts that, in many ways, reflects the very essence of the brand: to bring together different worlds into something timeless and unique.

The collection presents a vivid range of colour, texture, and pattern. Cushion covers, rugs, table linen and outdoor textiles crafted from natural materials come together to create in a tactile universe. Soft textures bring warmth to every room, while graphic elements introduce clarity and balance.

*“We want our products to speak to both the senses and the eye. In this collection, we sought to explore the tension between the traditional and the modern — and how they meet in the contemporary home,”* says Stig Jonsson, Creative Director.

With its 2026 collection, Chhatwal & Jonsson continues its journey to create interiors that are not only beautiful, but also meaningful to live with.

The collection is available for sale at [www.chhatwal-jonsson.com](http://www.chhatwal-jonsson.com) and at selected retailers worldwide from January 2026.
