PRESS RELEASE

F.LLI REIFER CUSTOM presents new designs at Maison&Objet

Paris, Maison&Objet 2026 - F.LLI REIFER CUSOTM, an Italian workshop renewed for its bespoke furniture and mastery of curved wood, unveils **two new designs** at this year's edition of **Maison et Objet**.

Following their **Bavarian State Prize win in 2023** for their acclaimed furniture sculpture **MIZU**, the studio continues its exploration of form, material, and craftsmanship with a new **wooden table** and **wooden lamp**. Both pieces showcased the workshop's signature approach, combining sculptural elegance with advanced wood- bending techniques.

Rotted in Italian craftsmanship and driven by contemporary design research, F.LLI REIFER CUSTOM creates custom furniture that blurs the line between functional object and sculptural statement. Their latest creations reaffirm the studio's reputation as **masters of curved wood**, where precision engineering meets artisanal sensitivity.

Visitors to Maison&Objet are invited to discover the new designs and experience firsthand the craftsmanship that defines F.LLI REIFER CUSTOM.
