

## **CARMELO Paris × Maison d'Objet — A New Chapter in Living with Art**

CARMELO Paris announces its acceptance to Maison d'Objet Paris, marking the introduction of its creations to the MoM marketplace. This partnership unveils a new expression of the brand's vision—bringing **crystal art objects** and **bespoke crystal sculptures** into the realm of everyday living through the **Art de Vivre Séries**.

At the heart of this launch are three inaugural pieces: *the Tiger's Eye Crystal Art Parasol*, *the Lapis Lazuli Falcon Sculptural Box*, and *the Rock Crystal Obelisk Tower*. Each creation reflects the brand's commitment to **gemstone craftsmanship**, **artisanal creation process**, and **collectible art design**—where material and meaning converge.

Rooted in natural stones such as Rock Crystal, Tiger's Eye, and Lapis Lazuli, and elevated through elements like gold and diamond, these works embody a refined approach to **luxury crystal decor** and **contemporary sculptural design**.

Through Maison d'Objet, CARMELO Paris extends its narrative—offering **experiential luxury art for home** and **objets d'art à vivre**, where each piece becomes part of a lived environment.

This new endeavor reflects a strong commitment to craftsmanship, storytelling, and the evolving relationship between art and living— where objects are no longer simply placed, but truly lived with.

3 of 4 **Bespoke Crystal Art Séries** are available on the platform from Art Objects, Home and now Art de Vivre.
