

# *The Bubble.*<sup>™</sup>

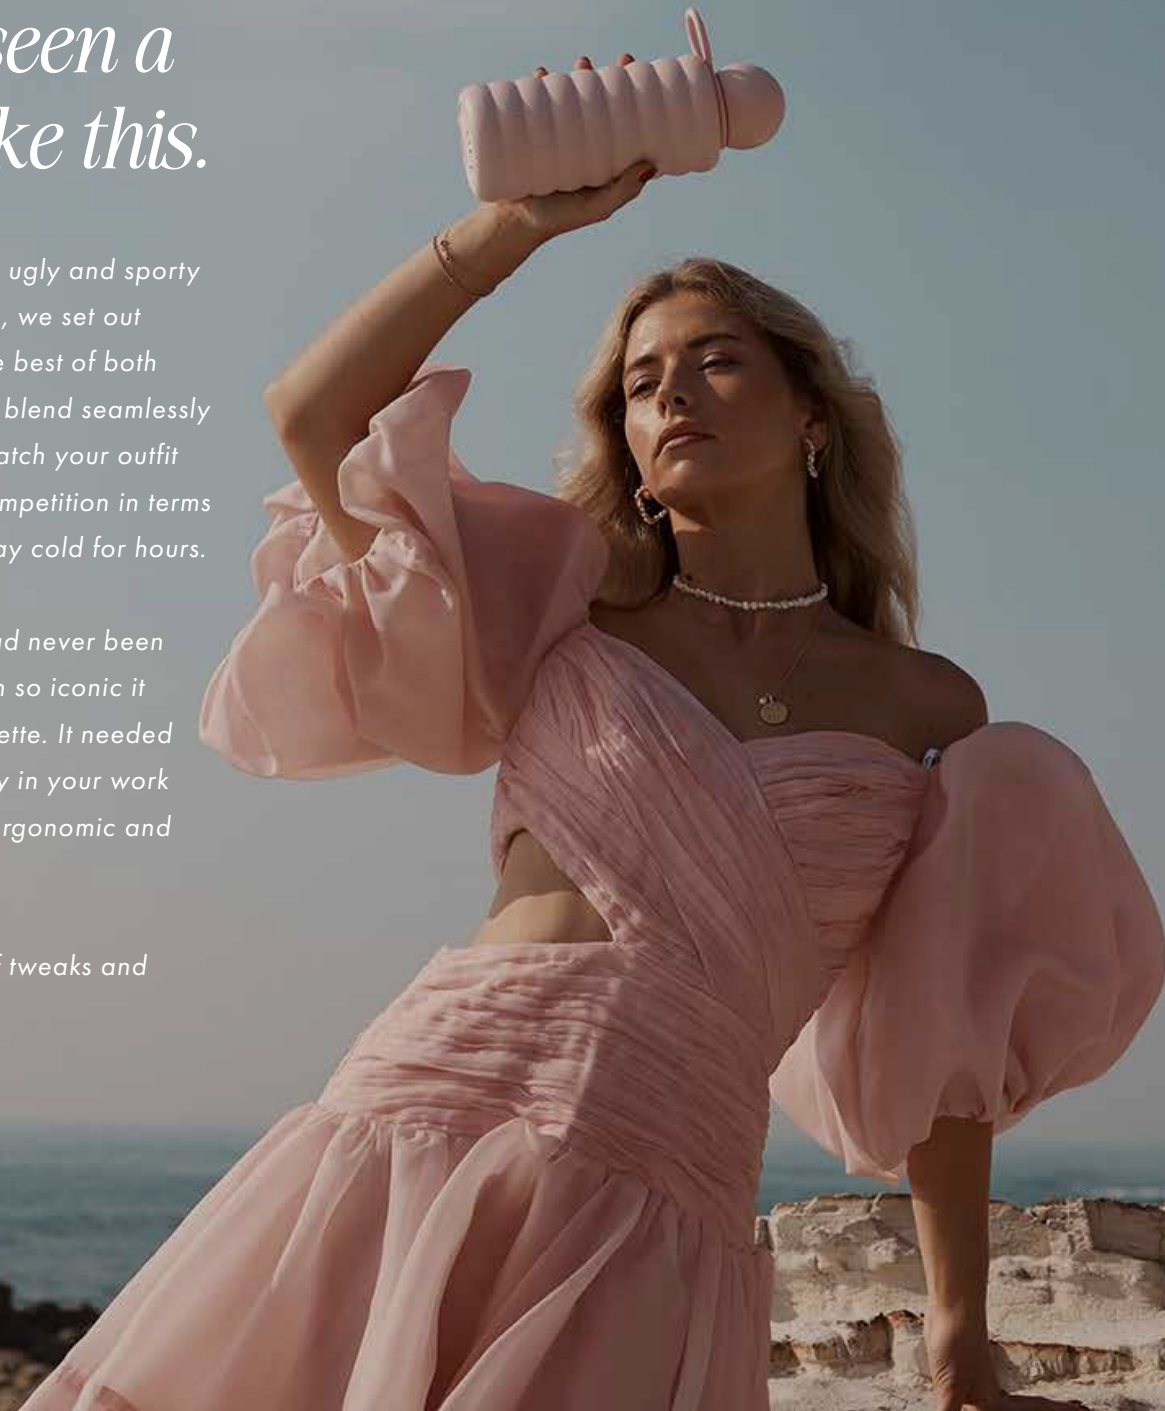

Worldwide Launch Press Release.

# *You've never seen a water bottle like this.*

*Fed up with water bottles that looked ugly and sporty (and were usually designed for guys), we set out to design something that could be the best of both worlds: a bottle so aesthetic it would blend seamlessly into your fashionable home, could match your outfit (obvs), but stacked up against the competition in terms of durability and volume AND still stay cold for hours.*

*We wanted something unique that had never been seen before, with a shape and design so iconic it could be recognisable even in silhouette. It needed to hold up in the dishwasher, fit nicely in your work tote, be lightweight yet rugged and ergonomic and accessible to all.*

*After a year in the making, dozens of tweaks and samples later, we've done it.*

# *The Bubble™.*

*The Bubble™ is a carefully crafted reusable water bottle designed for our most discerning customers. Its iconic ball lid, ergonomic chug cap and elegant silicon handle are designed with your decor in mind. With its iconic silhouette and clean matte finish, the Bubble™ is as functional as it is beautiful.*

*Its double-walled, vacuum insulated stainless steel design means you'll enjoy icy cold hydration without compromising on aesthetics. Kind to the planet and built for the future, The Bubble™ is a water bottle designed to match your impeccable style and meet your impossibly high standards.*

*Elevated Hydration.*

# *The Bubble.*<sup>™</sup>
