ABOUT PROVELLUS

Based in Hamburg, Germany, *Provellus* is a European manufacturer and supplier of premium sheepskins and natural wool products for *retailers, interior designers, hotels, hospitality projects and distributors* across Europe.

We specialise in carefully selected natural sheepskins with *rich texture, depth and character*. Our collection includes a wide range of wool structures — from long, silky and expressive Icelandic sheepskins to dense curly wool, soft shorn qualities and timeless classic sheepskins.

Every piece is chosen for its *natural beauty, tactile comfort and visual presence*. Instead of uniform, mass-produced surfaces, Provellus offers materials with authentic character — ideal for premium interiors, boutique hotels, concept stores, showrooms and lifestyle retail spaces.

Working primarily with *trusted European suppliers and selected breeds*, we focus on consistent quality, reliable availability and long-term partnerships. Whether for seasonal collections, interior projects or wholesale supply, *Provellus* provides natural materials that bring warmth, softness and understated luxury into every space.

HOW WE MEASURE A SHEEPSKIN

The size of a sheepskin is typically measured in terms of its length and width. To measure accurately, we follow these steps:

1. Length: We measure the longest dimension from the top of the neck to the longer bottom point of the hide.

2. Width: We measure the widest part across the chest or the widest point of the hide.

Important: Sheepskins are natural products and their shape may vary slightly. Measurements are typically given in centimeters.

LET'S CREATE SOMETHING EXCEPTIONAL TOGETHER

Provellus supplies premium sheepskins and natural wool products to retailers, interior designers, hotels and distributors throughout Europe.
