

Autumn/Winter 2026 – Graphic. Soft. Expressive

At Chhatwal & Jonsson, our signature graphic expressions have become vivid and intuitive for Autumn/Winter 2026. Colour and form create a personal and cosy atmosphere in the room. In this season's colour palette, earthy tones of rust, warm orange, and brown meet deep blue shades in combinations that are warm and energising. Chhatwal & Jonsson's designs for the season evoke the feeling of textile art rather than traditional interior design.

For more than fifteen years, handwoven dhurries have been at the heart of Chhatwal & Jonsson. They were the first rugs designed by our founder and Creative Director, Stig Jonsson, and remain one of the strongest expressions of the brand today. Woven by skilled artisans using traditional techniques, our dhurries combine Scandinavian design with genuine craftsmanship to create rugs that are both timeless and exceptionally durable.

For Autumn/Winter 2026, we continue this journey with a collection of new designs that build on our heritage while introducing fresh expressions. Graphic patterns, refined colour combinations and carefully balanced proportions create rugs, cushions and throws that feel contemporary yet unmistakably Chhatwal & Jonsson.

Heaven blue tones meet terracotta in an unexpected and expressive colour combination. Velvet cushions and a handwoven wool rug in shades of rust and warm orange blend softly together, creating an atmosphere that both elevates the room and brings an enveloping sense of warmth.
