

The image features a piece of jewelry made from upcycled wine bottle components. A gold-colored metal ring is attached to a chain, with a clear, circular glass piece (likely a bottle stopper or seal) hanging from it. The jewelry is set against a light gray background. In the bottom left corner, there is a decorative element of dried, feathery grass. A dark purple horizontal band across the middle of the image contains white text. A light green circle in the top right corner contains the text 'UPCYCLING CONCEPT!'. The brand name 'VINOOS' is at the bottom center, with 'TASTING STORIES' and '{AWARD-WINNING BRAND}' below it.

MESSAGE FROM THE BOTTLE

“When I saw some empty wine bottles lying in an old crate, I knew there had to be a better and more beautiful use for them.”
– founder Mireille Reuling

This inspired her to develop the upcycling concept ‘Vinoos Wine Jewellery – Message from a bottle’ as part of her Vinoos brand. In collaboration with Dutch glass studios, old, empty wine bottles are melted into beautiful beads and then further crafted by hand in the Vinoos atelier.

All the jewellery is made from high-quality stainless steel and comes with a sweet little message that you can send to your loved ones or yourself. From beads to jewellery, a beautiful collection in lovely packaging.

Let someone shine with 100% purity. A Dutch concept, fits through the letterbox, plastic-free and with that special ‘touch’ of upcycled wine. Cheers!

Glass atelier Strides Kreatief

FROM WINE BOTTLE TO JEWELLERY!

Message from a bottle, a unique upcycling concept.

Inspired by the rich green palette of recycled wine bottles, each piece tells a story of eco-conscious creativity. In collaboration with Strides Kreatief, old, empty wine bottles are melted down into beautiful beads and further crafted by hand in the Vinoos atelier.

With every piece of jewellery, we celebrate the beauty of repurposing; we turn yesterday's glass into tomorrow's jewellery. Join us in embracing sustainability in style, one wine bottle at a time!
