PRESS RELEASE

TRAVEL INSPIRES US

Unveils its new collections at Maison&Objet Paris

Travel as a starting point. Fragrance as a destination.

On the occasion of Maison&Objet Paris, our house unveils a new chapter in its olfactory universe and presents its two new home fragrance collections.

Inspired by places, memories and emotions brought back from a journey, we create fragrances as invitations to explore the world from home. Each creation combines a unique olfactory identity with an aesthetic universe designed in the finest detail.

ESCALES NOMADES

The signature collection from our house is reimagined with a new identity and refined home fragrance objects. Paris, Saint-Tropez, Capri, Tokyo, Bali and other destinations compose an olfactory journey where each fragrance tells a story — a unique atmosphere, a light, a somewhere else.

The collection now features a complete home fragrance ritual: scented candles 380 g, reed diffusers 300 ml and 500 ml, and room sprays, in entirely redesigned vessels and packaging.

LES VAGABONDES

Alongside it, we present LES VAGABONDES, a new collection that explores travel through memories, sensations and emotions. Aube Cendrée, Terre Oubliée, Cœur Voyageur and Horizons Perdus evoke the traces left by a journey: a fragrance, a light, a feeling, the memory of a distant place.

The collection is available in seented candles 220 g and reed diffusers 160 ml.

Two collections, two expressions of the same imagination: the spirit of travel.

Through this new presentation, our house affirms a vision of home fragrance where scent, object and décor become one.
