NEW BLOCK PIECE

MADE BY HAND

HEAVY ON PURPOSE

BLOCK Side Table is a new element of the BLOCK series, further developing its distinctive combination of wood and stone. An oak body rests on a solid marble block, creating a strong yet balanced composition.

An open compartment provides space for books, while an adjacent storage section opens with a single touch, keeping the front completely free of handles. The recessed stone base gives the piece a sense of lightness, making the body appear to float above the floor.

The base is crafted from brushed Breccia or Fior di Bosco marble, while the body is made from 28 mm board finished in natural oak veneer. The wood is available in three finishes: natural oak, walnut and graphite.

BLOCK Side Table is available in left- and right-hand versions. It can be used on its own or as a pair, beside a bed or next to a sofa.

The piece reflects Un’common’s architectural design language, defined by strong proportions, simple forms and natural materials.

Like the other pieces in the BLOCK collection, it was designed by Gosia Korycka, co-founder of Un’common.

DIM.: 63 x 38 x 55 (h) cm

Launching
10.10.2026

Un’common is a Polish furniture brand working with stone and wood, founded in Łódź in 2016.

We create furniture in short series from marble, travertine and wood, allowing the material to shape the character of each piece. Our designs are rooted in architecture - in clear proportions, simple forms and a respect for what is natural. Yet the most important decisions are made in the workshop. Staying close to the production process is essential to us and allows us to create furniture of the highest quality.
