NEW ROCKS - COLUMNS

FROM DUST TO STONE

'New Rocks' is a material research exploring biomaterials through geological processes. Locally sourced residual materials from Luxembourg, such as sediments, mining waste, minette iron ore, and construction debris, are processed into hand-shaped fragments. These 'new stones' are bound with natural agents, transforming discarded matter into collectible design objects. The biodegradable, modular forms become column-shaped furniture pieces that can be reconfigured in varying heights and arrangements. Their layered textures do not merely imitate erosion and growth but participate in these processes. 'New Rocks' invites a rethinking of materiality, turning discarded matter into resource and reconnecting it to nature through sculptural experimentation.

Materials:
Luxembourg Sandstone Mix
Hempcrete
Salt & Starch

UPCOMING:

HOMOFABER 2026, Venise Italie
CURATED by Lionel Jadot - Bruxelles Sept.2026
Paris Design Week - FACTORY 2026

PAST EXHIBITIONS AND AWARDS

AWARDS
Awarded Junior Talent - Jury Prize and Sustainability Prize - Luxembourg Design Awards 2025
Nominee Kazerne Design Awards 2025

2026
ALCOVA MILANO - (20-26th April 2026)
Object Rotterdam 2026 - New Talent
Rotondes, Luxembourg - CUBE installation (24 January - 3 May 2026)

2025
Luxembourg Design Festival - Panorama Product Design Exhibition - Nov.2025
Dutch Design Week 2025 - Kazerne Basic Instinct *(October 2025 - April 2026)*
Dutch Design Week 2025 - Bio Art Lab
CURATED by Lionel Jadot - Bruxelles Sept.2025
Paris Design Week 2025 - Milestone II
Kazerne Design Awards 2025 Exhibition
Berlin Design Week 2025 - EUNIC Next!
Milan Design Week 2025 - Base Milano
Material District Utrecht 2025 - Young Talent

2024
Dutch Design Week 2024 - Graduation Show 24
Residency Salem Art Works, New York, USA, July-August 2024

EDUCATION
Graduated from Design Academy Eindhoven, July 2024

BIOGRAPHY:

Jules Péan (b. 2001) is a Luxembourgish multidisciplinary artist-designer and graduate of the Design Academy Eindhoven. His practice moves between craftsmanship and material experimentation, resulting in sustainable, artistic, and collectible objects. Guided by a strong sensitivity to materials and processes, his work invites reflection on sustainability and emotional connections to the objects we live with.

He participated in a residency at Salem Art Works in New York and has exhibited internationally at Dutch Design Week (Kazerne 25 & Graduation Show 24), Milan Design Week (Base Milano), Paris Design Week (Milestones 2), Luxembourg (Rotondes) and in Brussels (Curated by Lionel Jadot).

Jules received the Jury & Sustainability Prize at the Luxembourg Design Awards 2025, awarded Young Talent at Material District 25 & Object Rotterdam 26, and nominated for the Kazerne Design Awards 25.
