Dupont

KLAUS DUPONT
BERLIN

Whoever owns a Dupont owns a true treasure!

Klaus Dupont passed away in 2025 after a short illness, but his works continue to speak for him

His passion inspired him and pushed him to create stylish and unique works.

For 15 years, they have been displayed in the Signature section at Maison & Objet and offered worldwide.

For over 20 years, Klaus Dupont, formerly a restorer, made these objects from fascinating and controversial materials.

.Young designers now showcase their interpretations in Paris for a few days, using his collectible pieces as inspiration.

His objects – whether modular or figurative – were made from antique bronze and mounted on marble or fine wood bases. Moreover, the most beautiful fragments rise from crystals, tree-shaped gorgons, feathers, or horns, revealing fragile and delicate forms.
